Derbyshire Dementia Information & Advice Service

Derbyshire Information and Advice Service offers a range of support to anyone affected by dementia, including carers - you don't have to wait for an official diagnosis, we can support from the time you are worried about your or a loved one's memory.

In addition to 1:1 tailored information from our local Dementia Advisers, we hold regular online carer information sessions, a separate online forum for Young Onset Dementia, have co-production meetings, and we deliver Memory Cafes and Singing for the Brain sessions in venues across Derbyshire.

Visit our website dementiaderbyshire.org.uk from time to time to see our latest information.

Reducing your risk of developing dementia

We're all aware from an early age that certain lifestyle choices may impact our health outcomes, especially regarding our heart health, and our risk of cancer.... do you know that we can all take steps to reduce our risk of developing dementia as well?

Joined Up Care Derbyshire, with a partnership of organisations across health, care and community sectors, have developed a 'user-friendly' website with information, tips, resources (including for children) and links – if you have access to the internet, why don't you take a moment to have a look at [Derby and Derbyshire's Brain Health Toolkit](#)

'Your brain is incredible' poster is used with kind permission from the Derby and Derbyshire Brain Health Toolkit website
